## Trade fair teamwork

Faller Packaging together with partner ROTZINGER at the FachPack and Pharmapack trade fairs

**Faller Packaging and cooperation partner ROTZINGER will be presenting their jointly developed Eco Save Pack for fragile products at two important European trade fairs this autumn – FachPack in Nuremberg and Pharmapack in Paris.**

Faller Packaging and the process and packaging technology specialist company ROTZINGER PharmaPack have been working closely together since last year. With the jointly developed Eco Save Pack, both companies are continuously optimising the idea of a sustainable packaging solution for fragile products and thus exploiting synergy effects.

The two companies will be jointly showcasing their sustainable Eco Save Pack solutions at major trade shows – Fachpack (28-30 September, Nuremberg) and Pharmapack (13 and 14 October, Paris).

The Eco Save Pack is a sustainable packaging carton, designed especially for fragile products. It is a carton tray with inlays that can be specifically adapted to the contents. All of the package components are made of environmentally friendly cardboard. The inlays have a chambered design, allowing them to accommodate products like syringes, vials and ampoules. In this way they ensure optimal protection during storage and transport.
